

Asse 4

POR FESR Emilia-Romagna 2014-2020

Start Date:
Giugno 2018

Duration:
19 mesi

Total Cost:
€ 197.177,00

Regional contribution to the
Municipality of Cesena:
€ 48.687,00

Co-financing by the
Municipality of Cesena:
€ 148.490,00

Funding programme:
**European Regional
Development Fund,
Regional Operational
Programme
EmiliaRomagna 2014-2020**

**Asse 4 -Priority of
investment "4C" – Specific
Objectives 4.1 Actions
4.1.1 and 4.1.2**

Primary School of Martorano – Renovation project, seismic improvement and energy efficiency.

OBJECTIVES

The purpose of the project is to seismically adapt the building through structural reinforcement, as well as to implement a series of interventions aimed at the energy improvement of the building envelope.

Therefore, the objectives of the project are:

- to put the building in a structural security to meet the minimum seismic requirements;
- to realize an energy requalification of the buildingplant system to reduce the energy consumption. The interventions of energy efficiency are realized as an added value to the building seismic improvement, in order to achieve an high level of energy saving.

EXPECTED RESULTS

The main result will be the renovation of the public building hosting the primary school "Martorano", including works of structural and seismic adjustment and energy retraining.

ACTIONS

The intervention concerns the refurbishing from a structural and seismic point of view and the energy retrofitting of the primary school "Martorano".

The energy retrofitting will be achieved through the following interventions:

- Insulation of the roofs towards the attic,
- Insulation of external perimeter walls,
- insulation floors on external porticoes,
- Replacement of windows and doors.

In the context of the retrofitting project, moreover, all the radiators will be equipped with thermostatic low-temperature valves.
